

Dr. Joseph Leung, Endocrinologist

Joseph Leung is an Adult Endocrinologist at Vancouver General Hospital and a Clinical Assistant Professor at UBC. He completed his undergraduate training, medical degree, internal medicine residency, and endocrinology training at UBC. He also completed the Clinician Investigator Program at UBC and a Master's in Public Health at Harvard University under the mentorship of Dr. Shazhan Amed, Dr. Tricia Tang, and Dr. Lori Laffel. His clinical and research interest is in the adolescent transition in type 1 diabetes care. He works closely with the pediatric endocrinology team at BC Children's Hospital on projects that advocate for the care of adolescents and young adults with type 1 diabetes.

Session: *Importance of keeping blood sugar under control and preventing complications*

- Objectives:**
1. Understand the impact diabetes can have on the body over the long term, highlighting diabetes and heart disease
 2. Learn effective ways to prevent complications from a medical point of view
 3. Discuss treatment options for diabetes, including medications that benefit the heart

Date: Day 2 – Sunday, November 20, 2022
